28 October 1964

MEMORANDUM FOR :

25X1A

SUBJECT : S&T Responsibility to Flying Squad Teams

1. OPD has written the attached SOP for flying squad teams. I would like you to assume all S&D responsibilities in conjunction with this SOP.

2. Under the paragraph entitled, Equipment, you will note that S&D is charged with the responsibility of assisting the team leader to insure the suitability of the equipment. It is important that you participate in the pre-planning of flying squad projects as well as in the actual check out simulation, etc., so that you can perform S&D tasks without delaying the missions.

3. It is equally important that you participate in the work described under subparagraph Post-Mission of the Logs and Recordings System. I am especially interested that you determine that the operations have, in fact, been consistent with the pre-planning in terms of equipment use and performance. By doing this you will "close the loop" and provide an experience factor which will become increasingly important in subsequent operations. Please establish adequate records for each mission so that rapid evaluation can be accomplished at any time on individual projects.

4. By copy of this memorandum, DAD/IO is requested to inform the appropriate OPD personnel that [] is the S&T contact for support in the flying squad SOP.
